

Scenario — You respond to a report of a coworker that has been injured by a fabrication machine. You grab your response kit and head towards the production floor. As you near her location, you can see she is responsive and other employees are with her. She is clutching a clearly bloody forearm, and you can see blood dripping on to the floor.

Procedure	Student Action (Performance Criteria)	Coaching Prompt
Scene Assessment	<ul style="list-style-type: none"> Pauses and assesses scene for safety. 	<i>Scene is safe!</i>
Standard Precautions	<ul style="list-style-type: none"> Uses disposable gloves (can be verbalized). 	
Introduce Self/Permission to Help	<ul style="list-style-type: none"> Introduces self to injured person. Asks if it is okay to help. 	<i>Person agrees to be helped! Normal mental status! No breathing difficulty noted!</i>
Severe Bleeding Assessment	<ul style="list-style-type: none"> Quickly scans body for severe bleeding. 	<i>Heavy flowing bleeding from an exposed forearm wound!</i>
EMS Activation	<ul style="list-style-type: none"> Asks a bystander to activate EMS. 	
Direct Pressure	<ul style="list-style-type: none"> Applies firm pressure with clean pad directly on bleeding site. 	<i>Bleeding has soaked through pad!</i>
Additional Pads	<ul style="list-style-type: none"> Leaving first pad in place, applies second pad. Re-applies direct pressure. 	<i>Bleeding is controlled!</i>
Pressure Bandage	<ul style="list-style-type: none"> Wraps bandage around limb and over dressings to maintain direct pressure. Monitors limb to see if bandage is wrapped too tight. 	
Tissue Color	<ul style="list-style-type: none"> Looks at injured person's face. With darker skin tones, checks palms, fingernails, or inside lip. 	<i>Tissue color is pale!</i>
Skin Temperature	<ul style="list-style-type: none"> Uses back of hand to check temperature on injured person's forehead. 	<i>Skin temperature is cool!</i> <i>Wound starts to bleed again and direct pressure is unable to control it!</i>
Tourniquet	<ul style="list-style-type: none"> Uses a tourniquet. (verbalized)
