Re: **Group CPR, AED, and Basic First Aid Training**

Please consider this proposal to provide **Group CPR, AED, and Basic First Aid Training** to your group. Attentive Safety CPR and Safety Training's ASHI CPR, AED and Basic First Aid combination training allows instructors an easy option for students seeking a comprehensive training class. Attentive Safety CPR and Safety Training's ASHI CPR, AED and Basic First Aid helps develop basic first aid knowledge and skills, and the confidence to respond.

Attentive Safety CPR and Safety Training's ASHI CPR, AED and Basic First Aid training is an excellent choice for both the community and workplace setting, and conforms to the 2015 AHA Guidelines Update for CPR and ECC, and the 2015 AHA and ARC Guidelines Update for First Aid. The instructor-led course is approximately up to 2 hours, with skills testing by an Attentive Safety CPR and Safety Training ASHI instructor during the course.

You'll never know when you'll need to save a life. Yet new research shows that most employees are not prepared to handle health emergencies in the workplace because they lack training in **CPR, AED, and Basic First Aid**.

Attentive Safety CPR and Safety Training shall provide instruction, certification and all equipment necessary to support training at a cost of:

Group CPR, AED, and Basic First Aid Training 5-9 people \$65.00 per person
